SHARP LAW CENTER,  
201 SHARP LAWE, EXTOW, PA 19341

DECEMBER 2008

## Special Recognition to a Special Friend

Our wonderful 4 legged friend "Annie" is now "officially" a Therapy Dog. Annie and her owner spent many hours in training to reach this goal.

She recently graduated from Keystone Pet Enhanced Therapy Services in Lancaster. The purpose and goal of the enhanced therapy program is to promote the healing and rehabilitating benefits of the animal/human bond. In order to receive her registration and tag Annie had to visit 2 care facilities and prove that she could navigate around people with medical equipment, such as wheel chairs, walkers, canes, oxygen tanks and other situations. She had to pass the test of obeying commands, and of course prove her gentleness and loving disposition whether she is with people she knows or those who are strangers to her. Annie and her owner have been coming to Adult Care for many years. She began her career with us when we were in West Chester and she has brought years of comfort and love to many of our clients. We are very proud of Annie's achievements and we congratulate her and Wes, but of course we already knew she was a "Therapy Dog".
